

SEC³URE Ethos

Human Resources

Rethink how you onboard contractors

It's time to move forward with confidence.
Know with certainty that everyone in your facility is credentialed and verified.

How we help

Clinical contractors are a great solution to staffing shortages and specialization skills but managing the massive amount of onboarding details is overwhelming.

There can be gaps, leaving you with uncertainty and exposing your facility to risks, especially where audits are concerned. You can have more control over the process.

SEC³URE Ethos makes it easy to confirm EVERYONE who provides care in your facility is trusted and verified – including those brought in by a physician or staffing agency. We properly vet and evaluate your clinical technicians and per diems, giving you peace of mind. We do all the work and at no cost to you.

With SEC³URE Ethos

You get 24/7 instant access to current certifications, training history, insurance, evaluations, background checks, immunizations and more!

Your contractors receive the benefit of creating a virtual portfolio of their professional background, completely portable among ALL their facilities.

Everything is easily accessible with a click of a button, which comes in handy when it's time to answer the auditor.

How SEC³URE Ethos works

Provide your policies and credential requirements

We collaborate with you to set up your requirements based on your facility's policies or accrediting standards

We verify.

We ensure your contractors submit documents in accordance to your policy.

We process credential documents in 24 hours.

You can trust it!

We let you know in SEC³URE that providers have read, accepted and complied with your policies.

IntelliCentrics SEC³URE Ethos, the world's largest trusted healthcare community, enables facility roles to partner in compliance. The cloud-based platform uses your unique policies to credential providers and vendor reps, delivering lowered costs, elevated compliance, at no charge to your facility.
