

# SEC<sup>3</sup>URE LINK

Elevate credentials to the level of trust.

The SEC<sup>3</sup>URE Link service ensures that only compliant stakeholders can be approved to be onsite at a healthcare facility. By integrating their credential requirements with the scheduling process, facilities are able to schedule only those individuals they trust. This includes physicians, nurses and vendor representatives visiting facilities, organized by appointment type - cases, procedures or business meetings.

## Schedule trusted individuals only:

- Select a meeting type such as case, procedure or meeting.
- Select everyone you want to invite; you control who's essential and who's not.
- We do the rest, ensuring everyone scheduled is compliant before the appointment.

With SEC<sup>3</sup>URE Link, everyone onsite and around the patient is trusted. As a facility, you can customize meeting requirements and communicate them to all participant instantly. You always know when individuals are coming onsite and where they are going for their appointments.
