SEC³URE Passport

The SEC³URE Passport is a digital credential file that has set the new standard for what it means to be a trusted member in the healthcare community. Not only does it give subscribers compliance to visit more than 10,000 facilities using the SEC³URE Ethos platform, it also includes some of the best innovations in the industry that make compliance easy and portable.

SEC³URE Passport comes with:

☑ **SEC³URE GO! badge**

SEC³UE Passport subscribers can experience fast and contactless check-in with the digital badge, and their compliance is visibly displayed.

☑ **SEC³URE Link service**

SEC³URE Passport subscribers can request and be scheduled for appointments via this service. It also enables real-time communications.

☑ **SEC³URE mobile app**

SEC³URE Passport subscribers can check their compliance status and manage their credentials easily on the go on the mobile app.

☑ **4-hour credential processing**

Our dedicated customer support team can process a new credential as fast as 4 business hours so our subscribers stay compliant.

When you have a SEC³URE Passport:

- **You receive instant policy updates.** We make sure you always stay in compliance with your facilities' latest policies.
- **Your compliance is portable.** Compliant individuals can visit all SEC³URE facilities without having to be re-credentialed.
- **You get the boost to do your job well.** Our technology streamlines processes and improves efficiencies so you get more time back to do your job.
